This notice announces an application to modify Department of the Army (DA) Permit# LRL-1996-582.

APPLICANT: Mr. Jeffery Stewart  
The Sawyer Place Company  
1725 Riverside Drive  
Cincinnati, Ohio 45202

LOCATION: The project is located along the right descending bank of the Ohio River at Mile 468.5 near Cincinnati, Hamilton County, Ohio.

Latitude: 39°-06'-46" (N)  
Longitude: 84°-29'-10" (W)  
7.5 Minute Quad: NEWPORT, KENTUCKY

PURPOSE: Saturday work hours.

DESCRIPTION OF WORK: The applicant proposes to modify the existing permit to include working up to fifteen (15) Saturdays per calendar year. The proposed work hours for these fifteen (15) Saturdays would be 7:00 a.m. - 5:00 p.m.

The existing permit authorizes the loading and off-loading of pig iron, iron ore, and their derivatives for storage and distribution by rail and/or barge. The permitted facility consists of a spud/spar barge with a mounted crane, a sound attenuation system and an upland conveyor system which transports the materials up the riverbank to a storage facility adjacent to the railway.

Some of the aforementioned permit "Special Conditions" the applicant must comply with include: 1) all approved sound attenuation measures/devices must be employed and maintained during all hours of operation of the conveyor facility; 2) Hours of operation of the facility are limited to 7:00 a.m. to 5:30 p.m. Monday through Friday; 3) The permittee shall control dust associated with the commodities unloaded and stored at this site; 4) Materials to be transported, or stored, at this facility shall be limited to pig iron, iron ore, and their derivatives; & 5) A maximum of four barges, one work barge, one barge containing a conveyor/excavator, and two commodity barges may be secured at the facility at any given time.

Regulatory Division  
North Branch  
Public Notice No. LRL-1996-582-mdh

The proposed modification would only add working up to 15 Saturdays per year. All other terms and conditions of the existing permit would remain in place.

REVIEW PROCEDURES: The Corps of Engineers is soliciting comments from the public; Federal, State, and local agencies and officials; Indian tribes; and other interested parties in order to consider and evaluate the impacts of this proposed activity. It is presumed that all interested parties and agencies will wish to respond; therefore, a lack of response will be interpreted as meaning that there is no objection to the proposed project. Any comments received will be considered by the Corps of Engineers to determine whether to modify the permit as proposed.

Written statements received in this office on or before the closing date will become a part of the official record and will be considered in the determination on this modification request. Any objections which are received during this period will be forwarded to the applicant for possible resolution before the determination is made whether to modify the DA Permit.

Information pertaining to this application is available for public examination during normal business hours upon prior request. Drawings are available on Louisville District's Internet site at <http://www.lrl.usace.army.mil/Missions/Regulatory.aspx>.
